PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of professional experience building web applications, APIs, and business systems with TypeScript, Java, Node.js, NestJS, Spring Boot, Angular, and React. Experienced in microservices, third-party integrations, relational databases, automated document generation, CI/CD, and AWS deployments. Strong across backend and frontend development, with a focus on maintainable, scalable solutions.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, PHP
Backend: Node.js, NestJS, Spring Boot, Laravel, REST APIs, microservices
Frontend: Angular, React, HTML5, CSS3, Sass, Tailwind CSS, Bootstrap
Databases: MySQL, PostgreSQL, MongoDB
Cloud / DevOps: AWS, Docker, Jenkins, GitHub, CI/CD
Testing / Methods: Jest, Cypress, Scrum, Figma

PROFESSIONAL EXPERIENCE

Full Stack Developer

AVLA | Full-time | Mar 2025 - Present

- Develop and maintain microservice APIs with Spring Boot (Java) and NestJS (TypeScript) to support core business workflows.
- Design and implement integrations between third-party services and internal modules, defining business logic and data flows across APIs.
- Build and maintain responsive web interfaces with Angular and React.
- Automate document-generation and reporting workflows, reducing manual effort.
- Support CI/CD pipelines and AWS deployments through Jenkins, contributing to reliable releases and infrastructure health.

Stack: TypeScript, Java, NestJS, Spring Boot, Angular, React, MySQL, Jenkins, AWS

Full Stack Developer

TechnoApes | Full-time | Oct 2023 - Feb 2025

- Developed web applications and APIs for client and staff administration, improving user tracking and operational management.
- Built APIs to automate internal processes and streamline workflows.
- Enhanced existing modules with new functionality and scalability improvements as requirements evolved.
- Worked across the stack with TypeScript, Node.js, Angular, Java/Spring Boot, and MySQL, using AWS and GitHub throughout the development lifecycle.

Stack: TypeScript, Node.js, Angular, Java, Spring Boot, MySQL, AWS, GitHub, Figma

PROFESSIONAL EXPERIENCE (CONT.)

Full Stack Developer

SpicyTool | Full-time | Jan 2023 - Oct 2023

- Integrated the Google Ads API to enable real-time campaign management and monitoring within the platform.
- Developed and improved web modules, adding data-management and analysis capabilities while improving the user experience.
- Worked with PHP/Laravel, WordPress, JavaScript/React, MySQL, and AWS based on product needs.

Stack: PHP, Laravel, JavaScript, React, WordPress, MySQL, AWS

Full Stack Developer

GoSocial | Independent contractor | May 2022 - Dec 2022

- Designed and optimized the PostgreSQL database to manage relationships between donors and social causes.
- Built the backend structure and Node.js endpoints for user and social-cause data management.
- Implemented the React frontend and used TypeScript across the stack to maintain a consistent codebase.
- Integrated external services for real-time notifications.

Stack: TypeScript, Node.js, React, PostgreSQL, AWS, GitHub, Figma

EDUCATION

Full Stack Web Developer - Henry Bootcamp | 2022 | 700 hours

Hands-on training in data structures and algorithms, React, Redux, Node.js, Express, asynchronous programming, testing, SQL, ORMs, and authentication. [Certificate](#)

Programmer Analyst - Universidad ORT Uruguay | 2018 - 2020

ADDITIONAL TRAINING

[Java](#) - Píldoras Informáticas, 2021 | [Spring](#) - Píldoras Informáticas, 2022 | [Angular](#) - Píldoras Informáticas, 2022

LANGUAGES

Spanish: Native | **English:** B2 - Intermediate ([EF SET certificate](#))
